

# NDA081451CB-1CY

- ❖ Parentage: Dakota Diamond x ND039173CAB-22
- ❖ Yellow skin and medium yellow flesh
- ❖ Uniform round shape and smaller tuber size (averaging 3.25 oz)
- ❖ High yield of <6 oz tubers
- ❖ Among highest yielding among all yellow entries in 2014 & 2015 Western Regional Red/Specialty Trials
- ❖ Highest merit rating among yellow entries in 2015 Western Regional Red/Specialty Trials
- ❖ Higher scab resistance than Yukon Gold

Yellow skin and medium yellow flesh, with an attractive round shape, shallow eyes and smaller average size (3.0 oz) compared with Yukon Gold. It has an average of 52% in the <4 oz and 23% in the 4-6 oz categories. This line is high yielding even with smaller tuber size, with 130 cwt higher yields on average than Yukon Gold. It has a light, uniform fry color with good flavor when baked, boiled or microwaved.
